

POTTA POORNA CHANDRA

Data Analyst

+91 8309754325 — poornac807@gmail.com — LinkedIn — GitHub

Professional Summary

Entry-Level Data Analyst with practical knowledge of Microsoft Excel, SQL, Python, and Power BI. Developed dashboard projects using real-world datasets and gained hands-on experience in data cleaning, data analysis, and data visualization. Looking for an opportunity to apply my analytical skills and contribute to data-driven decision making.

TECHNICAL SKILLS

Programming & Querying: SQL, Python
Data Visualization: Microsoft Excel, Power BI
Analytical Skills: Data Cleaning, Exploratory Data Analysis (EDA)

Internship

Data Analytics Intern Feb 2025 – May 2025
Rooman Technologies Tools: Microsoft Excel, SQL, Python, Power BI

- Worked with real-world datasets to perform data cleaning, validation, and preprocessing using Microsoft Excel.
- Developed interactive dashboards using Pivot Tables, Pivot Charts, Slicers, Conditional Formatting, and advanced Excel functions.
- Performed Exploratory Data Analysis (EDA) to identify business trends, patterns, and key performance indicators.
- Wrote SQL queries using SELECT, WHERE, GROUP BY, ORDER BY, JOIN, and Aggregate Functions for data analysis.
- Assisted in building Power BI dashboards to visualize business KPIs and generate meaningful insights.
- Improved data quality by identifying missing values, duplicate records, and inconsistencies before reporting.
- Prepared analytical reports and presented findings through dashboards and visualizations.
- Collaborated with mentors to understand business requirements and support data-driven decision making.

Projects

Road Accident Dashboard [GitHub] Aug 2025 – Sep 2025
Microsoft Excel — Data Analytics

- Developed an interactive Road Accident Dashboard using Microsoft Excel to analyze accident data and business insights.
- Performed data cleaning and preprocessing to ensure data accuracy before dashboard development.
- Created KPI cards to monitor Total Casualties, Fatal Casualties, Serious Casualties, Slight Casualties, and Accident Trends.
- Built dynamic reports using Pivot Tables, Pivot Charts, Slicers, Conditional Formatting, XLOOKUP, and Power Query.
- Analyzed accident patterns based on road type, weather conditions, vehicle type, and location to identify key trends.

HR Analytics Dashboard [\[GitHub\]](#)

Aug 2025 – Sep 2025

Microsoft Excel — Data Analytics

- Developed an interactive HR Analytics Dashboard using Microsoft Excel to analyze employee performance and workforce trends.
- Performed data cleaning, validation, and transformation to ensure accurate reporting and analysis.
- Created KPI cards to monitor Employee Count, Attrition Rate, Average Age, Average Salary, and Job Satisfaction.
- Built dynamic dashboards using Pivot Tables, Pivot Charts, Slicers, Conditional Formatting, XLOOKUP, and Power Query.
- Analyzed employee attrition based on department, education, age group, salary, and job role to identify key workforce trends.

Swiggy Sales Dashboard [\[GitHub\]](#)

Sep 2025 – Oct 2025

Microsoft Excel — Data Analytics

- Developed an interactive Swiggy Sales Dashboard using Microsoft Excel to analyze food delivery sales and customer ordering trends.
- Performed data cleaning and preprocessing to improve data accuracy before analysis.
- Created KPI cards to monitor Total Orders, Total Revenue, Average Order Value, and Customer Ratings.
- Built dynamic dashboards using Pivot Tables, Pivot Charts, Slicers, Conditional Formatting, XLOOKUP, and Power Query.
- Analyzed sales performance based on city, restaurant, food category, delivery time, and customer ratings to identify business insights.

Blinkit Sales Dashboard [\[GitHub\]](#)

Oct 2025 – Nov 2025

Microsoft Excel — Data Analytics

- Developed an interactive Blinkit Sales Dashboard using Microsoft Excel to analyze sales performance and customer purchasing trends.
- Performed data cleaning, validation, and preprocessing to ensure accurate and reliable analysis.
- Created KPI cards to monitor Total Sales, Total Orders, Average Sales, Average Rating, and Item Performance.
- Built dynamic dashboards using Pivot Tables, Pivot Charts, Slicers, Conditional Formatting, XLOOKUP, and Power Query.
- Analyzed sales trends based on outlet type, outlet size, location, item category, and customer ratings to generate business insights.

Certifications

Data Analytics Internship Certificate

Jun 2025

Rooman Technologies

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering

2021 – 2025

Annamacharya Institute of Technology and Sciences, Kadapa

CGPA: 7.79
